I am a CS undergrad student with an interest in next-generation technologies, competitive coding and problem-solving. Looking for opportunities to use my skills and to work in a high-performance start-up with an inclination towards deep learning and large scale user engagement.

EDUCATION

Degree/Certificate	Institute/Board	CGPA/Percentage	Year
B.Tech.	Jaypee Institute of Information Technology	7.7	2017-Present*
Senior Secondary	CBSE Board	87%	2017
Secondary	CBSE Board	9.2	2015

* Expected May 2021

EXPERIENCE

- **Digicred Technologies (Veris) Pvt. Ltd.**   May 2020 - June 2020
  Software Development Intern
  - Automated the Manual UI Testing Process.
  - Used Python Language and selenium library to create and test the applications.
  - Completed the Automation for unit testing and integrated testing.
- **Airlinq inc**   June 2019 - July 2019
  ios Development Intern
  - Migrated the web dashboard functionalities into an iOS App using React Native.
  - Optimized the code for the smooth functioning of various dashboard interactions.
  - Got the app review completed as per Apple app store policy.

PROJECTS

- **Quora Insincere Question Classification**
  - Created Model to classify toxic and divisive content of Quora questions.
  - Used Machine Learning algorithms and models like Logistic Regression, Bidirectional-RNN, LSTM.
- **Finding A Playground**
  - Playground finding app created using HTML, Javascript, PHP, MySQL.
  - Users can find the nearest playground according to the choice of sport.
  - Users can book playgrounds and connect with other players having the same interest.
- **Documentation App**
  - Created an app for writing documentations using MERN Stack.
  - Uses WYSIWYG editor to allow users to add multiple functionalities like Code Snippets, Markdown.

ACCOMPLISHMENTS

- 6 stars in Problem Solving on Hackerrank.
- 4 stars on Codechef.
- Data structures and Algorithms on InterviewBit with 52491 points.
- Solved a total of 125 problems on SPOJ with a global rank of 8680.

SKILLS

- Language - C++, Python, Javascript*
- Database - MySql, MongoDB*
- Operating system - Linux, Mac
- Miscellaneous - Git, React, React Native, Selenium   * Elementary Proficiency
